ENHANCEMENTS

A. HEALTHCARE DELIVERY EXPERIENCE

The Company and your Practitioner will work together to provide the following support and other offerings to optimize and enhance your healthcare delivery experience:

1. Panel Limits. A limited membership panel in order to enable your Practitioner to provide you with personalized care and attention to your individual needs.

2. Direct Communication And Connectivity With Your Practitioner. You will have the ability to connect directly with your Practitioner, regardless of medical necessity, over the phone, and through our customized HIPAA compliant messaging and Telehealth mobile media application (collectively referred to as “Communications Enhancements”). Your Practitioner will let you know what is the preferred method to reach him or her. Your Practitioner has committed to be generally available to communicate with you (or your authorized representatives) 24 hours a day, seven days a week through one or more of the Communications Enhancements. This also includes consultations by your Practitioner with other healthcare providers attending to you whether nearby or out of state, overseas or otherwise outside of the Practice’s usual service area. You will not have to rely on an administrative intermediary, answering service, or medical assistant staff when you wish to connect directly with your Practitioner. Telephone, messaging, and email communications will be responded to as quickly as reasonably feasible. You will also be entitled to have integrated “Telehealth” connectivity with your personal health coach and, of course you will be able to schedule “Telehealth” visits with your Practitioner regardless of medical necessity when an in person visit is not feasible or convenient. In the event that your Practitioner is not available due to vacation or other reasons, alternative communication with another practitioner at the Practice or with another covering physician or appropriately licensed practitioner will be arranged.

3. Care Navigation. Your Practitioner, working with other practitioners, will, to the extent reasonably feasible, be involved in coordinating and helping to manage your medical care outside your Practitioner’s office, including in the hospital, skilled nursing, rehabilitation and/or home setting. Your Practitioner will also conduct a pre-visit communication with those specialists to whom you are referred, conduct appropriate follow-up with respect to your

specialist visits and review the specialists’ recommendations with you by phone, email or in-office discussion, upon your request.

4. Same-day/Next-day Appointments. Use of the Communications Enhancements to make appointments, including where appropriate same-day appointments to see your Practitioner (or if your Practitioner is unavailable due to vacation or for another reason, to see another covering physician or other healthcare practitioner), including appointments for non-urgent care, regardless of medical necessity.

5. Extended Appointments. Appointments with your Practitioner for routine visits of such length as will enable you to fully discuss your health-related concerns, regardless of medical necessity.

6. Extended Patient Hours. In addition to office visits Monday through Friday during normal office hours, under special circumstances, if medically appropriate and mutually agreed upon, weekday evening appointments may be provided.

7. Limited Wait Time. Minimal waiting time for your Practitioner when you are scheduled for appointments, unless your Practitioner is attending to a medical urgency or emergency, or is delayed for another good reason. Should there be an occasional brief wait before your visit, it will be in a comfortable reception area which may include internet access and educational materials.

8. Dedicated Office Personnel/Expedited Check-in and Check-out. Availability of personnel at your Practitioner’s office to provide you with dedicated administrative service, including expedited check-in and check-out, in order to minimize your waiting time whenever possible and to provide you with outstanding service.

9. Personalized Member Services. Availability of a dedicated Member Services representative to provide assistance addressing and coordinating the administrative aspects of Members’ health needs, including to act as your advocate for all Member-related issues.

10. Test Result Communications. Your Practitioner or Practice professional staff will communicate directly with you about your test results in a timely manner. Your Practitioner and Practice staff will take the extra step to let you know they care.

³The Membership Fee pays only for the Enhancements listed in this Handbook. The Membership Fee does not cover or pay for any professional services provided by the Practitioner or the Practice, including without limitation any professional services supported by the Enhancements. All professional services are provided and billed for by the Practitioner and the Practitioner’s Practice.

⁴It is up to you to choose how to connect to the Communications Enhancements. Whether or not your phone, computer or internet service is HIPAA compliant is not under our control.

⁵Additional charges may apply for international or unusual communication expenses.

⁶In the event of an emergency, you should immediately call 911 and then, if you are able, you should contact your Practitioner.

⁷Depending on where you are located and other circumstances, there may be legal requirements that prevent or limit the ability to provide you with some or all telehealth services.

11. Travel Medical Services. On request, your Practitioner will provide you with travel medical advice, either personally or by referral to a travel or infectious disease specialist, and will provide those recommended vaccinations he/she is licensed to provide. You will be required to pay the cost of any vaccines.

12. Connectivity to Castle Connolly Top Doctors®. The Company has a special relationship with Castle Connolly Top Doctors®, which is an organization that uses a rigorous research process (that does not permit payments by the physicians for inclusion on the list), to hand-select leading physicians in all medical and surgical specialties to be awarded Top Doctor® status. Upon request, your Practitioner and his or her staff can facilitate expedited connectivity to this nationwide curated group of Castle Connolly Top Doctors®.

B. SENS SOLUTION® WELLNESS PROGRAM

13. SENS Solution® Health Assessment. The opportunity to receive a personalized assessment of your overall wellness status and needs through the SENS Solution® Health Assessment. This Assessment takes a close look at the four lifestyle pillars by having you fill out an electronic self-assessment tool, the results of which are reviewed by a SENS Solution® Health Coach, and which can help your Practitioner and SENS Solution® Health Coach work together to create and monitor a customized wellness plan. Note that this assessment is not a clinical assessment, and the assessment and plan are not intended to be, and should not be construed as, a Welcome to Medicare exam or an annual covered wellness visit, exam or clinical service.
